What is our status? Where are we in the Culture Transformation Cycle?

What purpose do we see in the transformation? Who/what inspires us to really transform? Where is our autonomy to choose, decide and participate?

1st SWING

How do we make sure that we trust us and the process? How do we celebrate success and even little achievements? How do we deal constructively with failure?

SAFE SPACE

Which new routines do we want to establish? How do we make sure that we stick to them? How do we monitor and reflect our progress?

2nd SWING
